

• PRODUCT OVERVIEW • 2026

Control your business. Operate with clarity.

A financial control system for freelancers and micro-businesses, on web and mobile.

• THE QUESTION

"Where do I stand **right now**?"

Every independent asks it, and most tools answer a different question. Invoicing apps show what you sent. Accounting looks backward and arrives too late to change a decision.

INVOICING TOOLS	Show what you sent, not what it means.
-----------------	--

ACCOUNTING	Looks backward, arrives too late.
------------	-----------------------------------

BILLINGZ	Reads your activity and shows where you stand, now.
----------	---

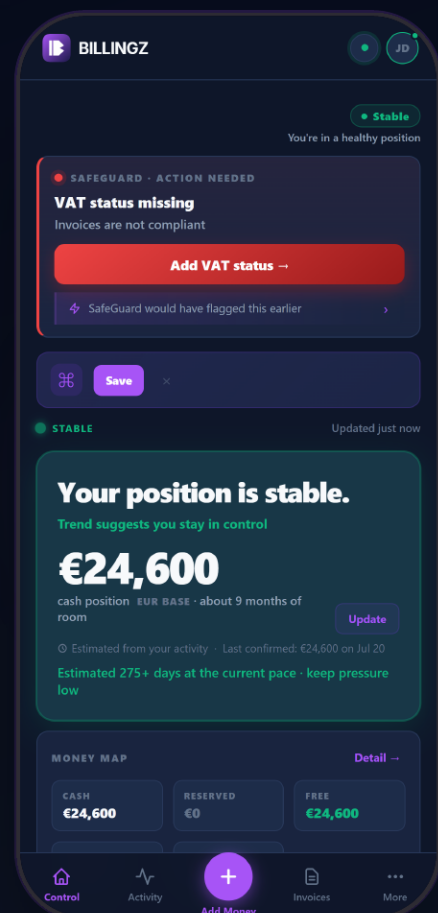

Position, movement, and what to do, in one place.

The home of the product. It turns your activity into a single honest read of the business.

POSITION Real cash, runway, and what is truly yours to spend.

PRESSURE The next risk, surfaced before it becomes a problem.

ACTION One clear next step, only when it changes something.

Your balance is not your position.

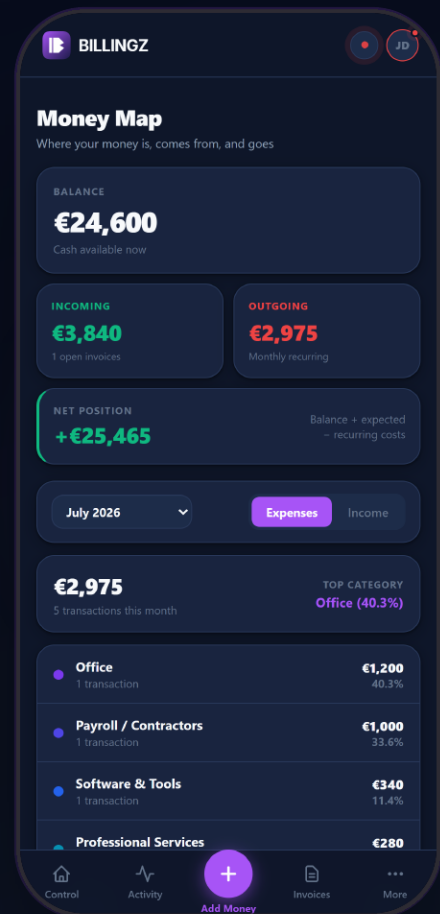

The number in your account includes money that is already spoken for. Money Map splits it, so the figure you act on is the one that is actually yours.

BALANCE Everything currently in the account.

INCOMING Invoices still waiting to be paid.

OUTGOING Recurring costs committed every month.

NET POSITION What the two sides leave you with.

Compliant before it leaves your hands.

Billingz checks the country-specific fields and will not let an invoice go out incomplete.

COMPLIANT

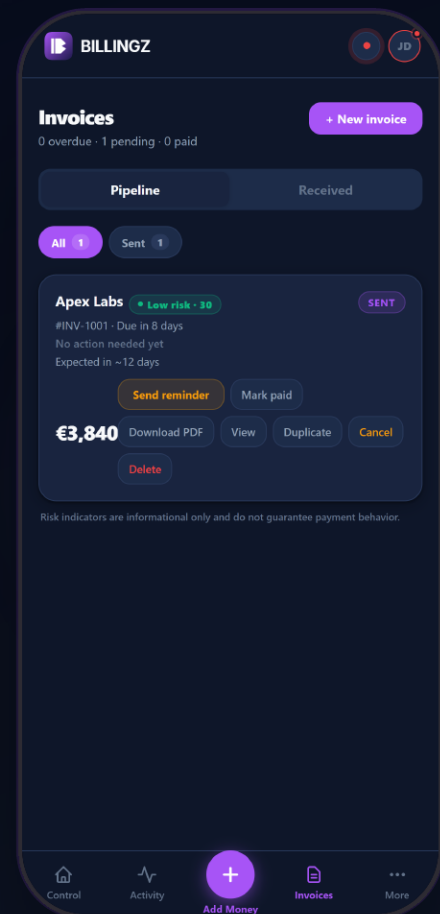

VAT status, company ID and place of execution, checked at send.

SCAN TO PAY

Bank details and a QR code on every document.

TRACKED

Draft, sent, overdue, paid, at a glance.

• EVERY MOVE COUNTS

See what each cost does to your runway.

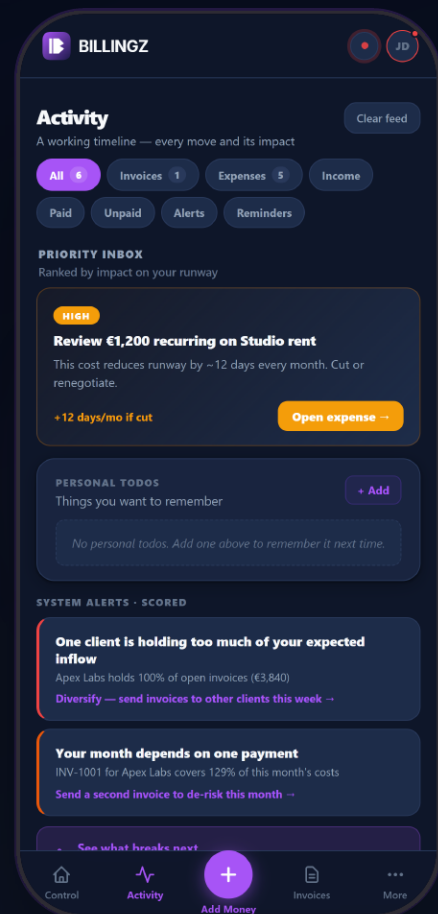

A recurring cost is not just a number, it is days off your runway.
Billingz shows the trade every time.

EXPENSES

Log once, see the monthly burn and the days it costs.

ACTIVITY

Payments, invoices and expenses in one timeline, ranked by impact.

● PLANS

Start free. Grow into clarity.

Free

€0

Try the product, no card required.

Core

€9 /mo

Run your business in full.

RECOMMENDED

Control

€17 /mo

See what is actually yours. Cash Clarity, runway, risk.

SafeGuard

€29 /mo

Predict and avoid, ahead of time.

All prices are net. VAT is not included and is applied according to your country. Annual billing gives two months free: €90, €170 and €290 per year.
