FOR EVERYONE WHO RUNS THE WORK THEMSELVES

# If money flows through your hands — Billingz is for you.

01

## Solo operators

Coaches, consultants, contractors, one-person shops — running the whole thing alone.

02

## Freelancers

Designers, devs, writers, photographers — billing clients, juggling projects.

03

## Studios & agencies

Two-to-ten person teams managing retainers, recurring work, and overhead.

04

## Small businesses

Shops, services, micro-SMEs that need real numbers without a finance department.

→ IF YOU WRITE INVOICES AND PAY BILLS, THIS IS BUILT FOR YOU.

WHY IT MATTERS

# You don't lack tools. You lack control.

— HEARD 50+ TIMES

**"I thought I was fine."**

— *too late*

- Money comes in. Money goes out.
- But you can't tell where you actually stand.
- You don't know what's safe to spend this week.
- You don't know how long the runway lasts.

ONE SYSTEM. THREE ANSWERS.

# Money in. Money out. What it means.

Invoices, expenses, and cashflow —  
connected into one clear picture.

No spreadsheets. No five-tab juggling.  
One screen tells you what to do next.

SEND INVOICES IN SECONDS

# Compliant invoices. Sent before the call ends.

VAT-aware, branded, multi-currency. Draft on the laptop, finalise on your phone — same data, real-time sync.
